SUMMARY

Third-year B.Sc. in AI & ML Engineering after completing two years on the Data Science track. Comfortable across the stack — data pipelines, ML fundamentals, BI dashboards — and across the table, with the operational discipline of running a small services business since 2024.

EXPERIENCE

Owner / Operator

SnowAway & Landscaping Solutions

Nov 2024 — Present · Winnipeg, MB

- Founded a multi-service operation across snow removal, landscaping, and auto detailing.
- Run acquisition, scheduling, invoicing, CRM, and unit economics end-to-end.
- Maintain financial records and optimize resource allocation to maximize profitability.

Senior Marketing Consultant

TELUS Communications

Mar 2024 — Nov 2024 · Winnipeg, MB

- Analyzed customer usage, demographics, and product metrics to recommend tailored solutions.
- Tracked and evaluated regional sales metrics; exceeded quarterly targets by 42%.
- Managed customer relationship data to maximize retention, identify upsell, reduce churn.

Marketing / Sales Associate

EPH Apparel

Sep 2023 — Feb 2024 · Winnipeg, MB

- Logged customer measurements, preferences, and purchase history in CRM to drive personalized marketing.
- Analyzed seasonal trends and consumer feedback to support local inventory forecasting.

SELECTED PROJECTS

Motion Web Design

Next.js · TypeScript · GSAP · Framer Motion

Marketing site treated motion as the design layer. 60 fps target, LCP 1.1s, asset budget enforced in CI.

Evolutionary Consensus Engine

Python · PyTorch · NumPy · Ray

Multi-agent debate-and-breed framework. Beats single-agent baseline by 18% on reasoning suite (internal research).

Food Delivery Platform Clone

Next.js · Node · PostgreSQL · Redis · Mapbox

Full-stack clone — realtime courier tracking, order queue, Stripe payment intents. Load-tested with k6.

Content Automation Workflows

n8n · OpenAI · Notion · Webflow

12 production workflows. Cut weekly publishing time 73%; 4k items/wk through RAG scoring + brand-voice guardrails.

SKILLS

Languages	Python (advanced) · SQL · Java · C++ · R
Data & ML	Pipelines · BI Dashboards · PyTorch · ML Fundamentals · Statistics
Automation	n8n · OpenAI APIs · Webhooks · Notion / Airtable
Business / Ops	CRM · Social Strategy · Content Strategy · Client Operations

EDUCATION

B.Sc. — Artificial Intelligence & Machine Learning Engineering

University of Manitoba · Winnipeg, MB

2023 — 2028 (projected) · GPA 3.4 · 3rd year

Transitioned from a Data Science focus after completing the first two years. Coursework: Calculus, Statistics, Python, Java, C++, ML Fundamentals.
